Template

L9 is a fixed-width template displaying at 990 width. It is designed for 1024 x 768 resolution.

Navigation

Four Top Level Sections with a fifth “bucket” which contains remaining Top Level Sections.

- The four Top Level Sections appear in priority order (100, 200 etc.)
- The fifth “bucket” is a label, not a section, and must be in the last/fifth spot in the navigation. The “bucket” contains the remaining Top Level Sections for your site and will appear in priority order.

Note: Avoid long section names and slashes (/) when naming your Top Level Sections. Long names may not fit in the defined area (one line) and slashes (/) cause disconnects with uploading Section Images and files.

Front or Home Page Link

The logo in the masthead is hyperlinked to the Front/Home Page of the site. There is also a “Home” link in the breadcrumbs that appears above section and article pages.
